SUMMARY

Creative and detail-oriented front-end developer with 3+ years' experience building responsive web interfaces. Proficient in React, CSS, and other frontend technologies. Passionate about crafting user-centric designs and building scalable applications.

WORK EXPERIENCE

Frontend Web Developer, Orion's Belt   Jan 2024 – Present
Software development and technical consulting company
- Collaborating with designers and backend developers to build and maintain responsive, user-friendly web interfaces, focus on optimizing performance, ensuring cross-browser compatibility, and delivering seamless user experiences across devices

SteadySteps (Contract)   Mar 2025 – Present
A start-up dedicated to helping people battling with addictions to break free
- Developed a responsive landing page and admin dashboard panel using React and Tailwind CSS
- Translated Figma designs into pixel-perfect, accessible interfaces with optimized performance
- Integrated reusable components and ensured consistent UI with a scalable design system

Chest Savings App (Contract)   Apr 2025 – Sep 2025
A Fintech app for creating savings account (like CowryWise or PiggyVest) for Ghanaians
- Developed a responsive landing page and admin dashboard panel using React and Tailwind CSS
- Integrated reusable components and ensured consistent UI with a scalable design system

Cribvest (Contract)   Mar 2025 – Aug 2025
A real estate company giving diaspora and international buyers seamless access to Africa's most promising residential and vacation rentals
- Helped in API implementation for both admin and user dashboards

UI/UX Design Instructor, Globaltech World Computer Institute   Oct 2023 – Dec 2024
A tech training institute located in Lagos State, Nigeria
- Delivered comprehensive product design training, enhancing students' skills that enabled them to secure internships in the tech industry

Web Development Instructor, Globaltech World Computer Institute   May 2023 – Dec 2024
A tech training institute located in Lagos State, Nigeria
- Trained students the fundamentals of web development, guided students through hands-on projects, and provide one-on-one support to help them build real-world skills

Coolbucks (Contract)   Oct 2023 – Dec 2023
CoolBucks is an online lending platform that provides unsecured loans (without collateral)
- Designed a responsive website using React and Bootstrap CSS

- Following Figma designs to the details, ensuring design was followed at scale
- Collaborated closely with the design team to improve UX based on feedback.

EDUCATION

Bachelor of Science, Computer Science   Sep 2024 – Present
National Open University of Nigeria
- Bachelor of Science Degree in Computer Science

High School Diploma   Sep 2011 - June 2017
Federal College of Education (Technical) Secondary School
- Secondary School Education

PROJECTS

- **Jaypegs**: A website where one can save images and download images using the Pixabay API - https://jaypegs.netlify.app
